DETAILED ACTION

Drawings

1. Figure 8 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. Corrected drawing is required in reply to this Office action.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-7 is the inclusion of the limitations of a variable power divider which includes a first 90° phase combiner, a second 90° phase combiner, and a phase-amplitude adjustment block provided with variable phase shifters and variable attenuators respectively corresponding to the two-channel polarized signals; and a phase shifter and an attenuator which are provided on at least one of two-channel signal lines between the orthomode transducer and the first 90° phase combiner, and equalizes amplitudes and phases of the two-channel polarized signal. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
